

Dear Hanneke:

In the name of all the members of the National Conference of University Directors of Occupational Therapy (CNDEUTO), we are very grateful for your presence in Murcia. We also thank you for your efforts in increasing the possibilities of participation of Spanish university centers of Occupational Therapy (and of the National Conference that represents them) in the European Network Occupational Therapy Higher Education (ENOTHE). We hope that the message of this visit will be translated into a bigger and better communication. This will allow an active and intense cooperation.

In our next CNDEUTO meeting, we will speak, once again, about competences and contents in Occupational Therapy. Furthermore, we will discuss and reach an agreement concerning the institutional relationship with the ENOTHE.

We continue advocating the growth of Spanish Occupational Therapy from a double respect: national diversity and European convergence. In this way, we desire to continue growing at the same pace as we have been doing in these last five years.

At the same time, I also enclose the mail from the President of the Latin American Conference of Occupational Therapy (CLATO), professor of the University of Campinas (Brazil), Ms. Rosibeth.

Finally, we hope that you have enjoyed our warm climate and have spent a pleasant few days in the wonderful city of Murcia with all of us.

We shall continue to be in contact.

Best wishes,

Sergio Santos del Riego ( CNDEUTO President)
