

13th February

Dear Hanneke,

I inform you that the other centers (Valencia and Malaga) are expecting to begin the inscription steps in the ENOTHE. We will decide this matter in an assembly CNDEUTO that will be celebrated in October of the present year in Oviedo (Asturias).

I would like to go to the CLATO meeting. They are very interested in the ENOTHE European Tunning of Occupational Therapy. We are promoting this event in CLATO from the CNDEUTO. Though I do not deny my presence in this event, there are always financial limitations. Those that put the brake on this type of journeys. At the moment there has not been taken a resolution about that matter.

I am glad to communicate you that the CNDEUTO has formed in this year a Commission of comparison-integration: Professional competitions ENOTHE "versus" professional competitions CNDEUTO.

Besides, we have put your informative video ENOTHE for the students in the web page CNDEUTO. Probably it would be interesting the translation of this video to other languages: Spanish, Portuguese and French. The reason why I suggest this is that all Latin American countries and many other countries were able to understand it.

As always, I will keep you informed.

Best Regards

Sergio Santos del Riego- CNDEUTO President.
