

Dear Hanneke:

Such and as I told you in Murcia, in the last meeting celebrated by the CNDEUTO in the Faculty of Sciences of the Health of the University *Rey Juan Carlos* on January 19th of the present year, we have treated several points in relation with the ENOTHE.

In this sense, I inform you about two matters:

1st.-We have appointed Prof. Salvador Simó Algadó (from Vic University, Barcelona) to provisional representative for the ENOTHE 2007 (Cork). There has not been a consensus to establish a permanent representative. The reason is that there are eight national centers that do not belong to the ENOTHE (economic reasons are adduced fundamentally) and nowadays the CNDEUTO has no financing. Nevertheless, I will try that more TO's centers get registered in the ENOTHE. I will also attempt to create a more active participation from the several inscribed centers (through their teachers) in the various activities that you are developing so wonderfully.

2nd.- In the past meeting, no candidacy for a future event ENOTHE 2009 was presented. However, afterwards, several days later, many centers have encouraged to present their candidacy: Catholic University of Valencia *San Vicente Mártir*, University of Málaga and University of A Coruña. It may be possible that some more university centers will organize the ENOTHE Congress in Spain in 2009, 2010, 2011,....

About this subject, I inform you that we will present these candidacies in the next meeting CNDEUTO. We would like to discuss it again and proceed to a decisive vote . We will keep you informed about this matter.

Always at your disposal.

Best Wishes
Prof. Dr. Sergio Santos del Riego
CNDEUTO President
A Coruña, 31st of January, 2007.
