## C. How to copy from Crunia a bibliographic reference in a certain citation style?

Once you have located the work you want to cite in a list of results in *Crunia*, place the cursor over the title and press the left mouse button.

A new screen will open with the data of the work, place the cursor on the quotation symbol and press the left mouse button.

A box will appear with the citation data where we can choose the citation style by placing the mouse over it and pressing the left mouse button. Then select *COPY TO PAPERBOARD* with the cursor and press the left button of the mouse.
