

WORKSHOP

Money in Transformation: Actors, Processes and Social Effects of Financial Innovation

Faculty of Economics and Business

Meeting room (mezzanine floor)

A Coruña - September 5-6, 2022

MONEY IN TRANSFORMATION
Ministry of Science and Innovation-Spain
State Research Agency

Aims and Scope

This research meeting aims to discuss the main final and provisional results associated to the ongoing project "Money in transformation: actors, processes and social effects of financial innovation" (MONFIN) - PID2019-106273RB-I00.

This proposal intends to debate the different research and transfer of knowledge results carried out in the framework of the project. We are in the mid-term period of development, a key point to evaluate the consecution of the main objectives and organise the short/ mid and long term activities. It should also serve as a turning point that allows defining the next objectives to be achieved by the various research teams involved in the project, in order to consolidate the research network and its future projection.

Programme

The programme is organised around the main project work packages that are been carried out by the research team (Project PID2019-106273RB-I00, Retos de investigación Ministerio de Ciencia e Innovación)
