

This letter is aimed to support Your efforts to reach these goals, and You obviously can use this Letter in any occasion and place it will be necessary and usefull; European Society and Myself are fully open to any action (meeting, documents etc.) together You , when Spanish Colleagues would request any our activities to support and to enrich their actions.

In fact it is impossible to imagine that a Great Country, so important at European level in Health as in many other fields, as Spain could not accept all these contents to offer the best level of Rehabilitation Services and interventions to the Disabled People as in theother parts of the European Union.

Kindest regards,

**Prof. Alessandro Giustini**  
**ESPRM President**
